## RUSSIA'S CLAIMS.

Contents That the "Open Door" is Not a Commercial But a Political Question.

## OUR INTERESTS TO BE PROTECTED

A Trade Agreement of Some Sort Between the United States and Russia Will Be Reached.

An Hour's Conference Between the Russian Ambassador and Secretary of State Hay Was Held Sunday Afternoon.

Washington, April 27.—Russia's demands in Manchuria and their effect on American interests were the subject of a conference Sunday afternoon between Secretary Hay and Count Cassini, the Russian ambassador, which occurred at Secretary Hay's house and lasted for nearly an hour. It is denied that the ambassador brought official advice from his government, but the fact that he is still suffering from an attack of lumbago which has confined him to the embassy for several weeks is evidence of the urgency of the call.

Steps already have been taken by the state department to ascertain the true inwardness of Russia's latest move. Ambassador McCormick, at St. Petersburg, has been instructed by cable to present to the Russian foreign office a note which while diplomatically known as one of inquiry, is in substance a strong protest against Russia's demands. Cabled instructions also have been sent to Minister Conger at Peking to express to the Chinese authorities the dissatisfaction of the United States with Russia's demands and our hope that China will not accede to them. No answers have yet been received to either note, though unofficial assurances are still reaching the department that American interests in Manchuria will be protected. In the department's note, which Ambassador McCormick probably has presented, Russia's attention is called to the assurances which repeatedly have been given the United States relative to the preservation of the integrity of China and the continuance of the open door policy. Russia also is reminded of the severe blow to American trade which must follow the granting of the first two demands, that no more ports or towns in Manchuria be opened and that no additional foreign consuls be admitted.

Russia's reason for contending for a closed door in Manchuria is the claim that the open door is not a commercial but a political question. She continues to assure the United States that in some way this country's interests will be protected in Manchuria. The point is made that as the Manchurian demands are still in negotiation between St. Petersburg and Peking the United States can not expect that Russia make concessions until the fate of her demands has been determined. When China has acceded to all of these demands it is suggested that a trade agreement of some sort can be reached between this country and Russia which will protect our trade interests.

Appreciating the fact that the interests of this country in Manchuria are those of trade and not territory, Russia, it is stated, is disposed to make certain trade concessions to the United States in Manchuria at the proper time.

## VENEZUELAN TROOPS.

They Were Defeated By the Revolutionary Forces.

Williamstadt, Island of Curacao, Tuesday, April 27.—News has reached here that the Venezuelan government generals, Gomez and Ferrer, have been routed at El Guapa by revolutionists, under the command of Gen. Rolando Gomez and Ferrer returned to Caracas, with many wounded. Gomez owes his escape from capture only to the fact that he was well mounted.

Forces of the government have also been defeated at Barquisimeto, San Felipe and Moron. Large numbers of wounded government soldiers have reached Valencia, Puerto Cabello and La Cunaira.

The revolutionary general, Riera, has evacuated La Velade Coro and is now occupying a strong position near Coro, waiting for an opportunity to capture that town without any bloodshed.

## Withdraws From the Race.

Louisville, Ky., April 27.—John K. Hendrick, of Paducah, Sunday withdrew from the race for the democratic nomination for governor of Kentucky. The announcement was made in the form of a public letter.

## DEAD FOR TEN YEARS.

D. D. Lykens, a Lewis Republican, Thinks it Useless For His Party to Put Up State Ticket.

[Enquirer.] "There is absolutely no use of the Republican party placing a ticket in the field in Kentucky this fall, because the party is dead for the next ten years to come," said D. D. Lykens, of Lewis County, former member of the Kentucky State Legislature, who was at the Stag Thursday night. "While I am a Republican, I am alive to the fact that the assassination of Goebel has done the Republican party a great deal of harm, and I want to say that if W. S. Taylor is in any manner guilty of this affair, or had any connection with it, he should be hanged. I was in the Legislature with Senator Goebel, and always found him a fair and square man."

"I have stated to my friends that it will be useless for our party to put a ticket in the field, but of course we will have to do it for form's sake, but the Democrats will beat us by many thousands. Beckham will get the nomination with ease, and he will win over the Republicans with the same ease. General Pratt will undoubtedly be the Republican nominee for Governor, because he has an office and some money, and the party will think it to its interest to run him. Charles L. Gray will get the instructed delegation from our county for the Republican nomination for Railroad Commissioner."

The Kentucky State Medical Society adjourned to meet in Lexington next year. The officers chosen were: President, Dr. Steele Bailey, Stanford; Vice Presidents, Drs. T. B. Stickler, Elizabethtown; J. T. Reynolds, Mt. Sterling; M. P. Cecil, Central City; Secretary, Dr. J. B. Bullitt, Louisville; Treasurer, Dr. W. B. McClure, Lexington. The orator in medicine next year will be Dr. J. B. Marvin, of Louisville, and the orator in surgery will be Dr. P. H. Stewart, of Paducah. The following were elected delegates to the meeting of the American Medical Association to be held in New Orleans next month: Dr. Ap Morgan Vance, Louisville; Dr. J. N. McCormack, Bowling Green, and Dr. J. A. Sherley, Winchester.

## Senator Bailey's Big Fee.

New York, April 24.—United States Senator J. W. Bailey, of Texas, is receiving congratulations on having recently been paid a fee of \$200,000. John H. Kirby, the "Industrial King" of Texas, determined to refinance one of his large companies operating in the pine forests of Southeastern Texas and employed Mr. Bailey to assist in enlisting New York financiers in the enterprise, his compensation to be a fee and commission amounting to \$200,000. The negotiations were successful.

## THE MARKETS.

Review of Trade in Tobacco and Live Stock at Cincinnati the Past Week.

Cattle.—There was but slight variation in prices of cattle and the condition of the market during the past week was regarded at about steady each day, though compared with a week ago, prices would probably average a shade higher. There is a good demand for good stockers and feeders. Common milch cows are a drag. Bulls are in fair demand and steady.

Hogs.—On Monday the hog market became active, and packers and heavy stock advanced as much as they lost on Saturday before. Since then the market has been steady.

Sheep.—Sheep declined 25¢ to 35¢ during the past week, and lambs declined 30¢ to 40¢. Receipts were not large, but the demand was not active; under the light offerings the market is now steady, but slow.

Tobacco.—Transactions of the week showed an increase in both offerings and receipts as compared with the low ebb of previous week.

Realizations, however, were not as satisfactory to shippers, as buyers continue to neglect the new tobaccos on account of their poor and moist condition, but at same time do not appear to be reaching out for the remnant of the old crop still remaining in shippers' hands.

Nearly three-fourths of week's offerings were of old tobaccos, and as about 23 per cent. of the sales were rejected, it is evident that the prices were to a large extent unsatisfactory to shippers. Offerings of new were largely confined to common and nondescript trashes and lugs under 5c. in which the mixed reds predominated, and good and medium leaf between 6c. and 9¢.

During the last week the market may be said to have reached the extreme low ebb of the dull period of the year, and a decided improvement, both in prices and the size of the "breaks," may reasonably be expected with the advent of the redried new crop in the markets within the next two weeks. The demand for manufactured goods, both plug and smoking, continues good throughout the country. Manufacturers have been drawing largely upon their reserve stocks of raw material in the past few weeks, owing to the poor and moist condition of the new tobaccos in the "breaks," and there is no question but that they will be very active buyers, as they must replenish, when the redried new comes on the market.

There was a heavy frost this morning, the temperature being down to within one degree of the freezing point.

## WILL RECEIVE BIG REWARD.

The Body of Adolph Openhym Recovered By a Boatman.

New York, April 27.—The body of Adolph Openhym, the wealthy merchant who is believed to have jumped into the Harlem river from High bridge on March 30, was found within a short distance of the bridge Sunday by a boatman who will receive a reward of \$5,000.

Ever since Openhym's disappearance a constant search of the waters of the Harlem river has been kept up. A steam launch chartered by the missing man's family patrolled the river night and day and scores of boatmen, stimulated by the offer of \$5,000 for the recovery of the body, swept the river bed with grappling irons.

The body came to the surface Sunday alongside the boat of John Meehan, who had been prominent among the searchers from the first. On it was found all the jewelry Mr. Openhym wore when he left home and a small sum of money.

## MYSTERIOUSLY DISAPPEARED.

Canvass Mail Pouch Containing 24 Registered Packages.

The pouch had been turned over to Route Agent J. P. Boger. Being called to the telephone, he dropped the pouch on the floor. When he returned a moment later the sack was gone. There is no clue to the mystery except that two strange men were seen in the office just a few minutes before the robbery occurred.

Lexington, Ky., April 27.—The world's greatest trotting turf event—Kentucky's \$22,000 Futurity—which closed its nominations on March 16, signals the advance and progress of the great breeding interests of the country by showing over two hundred more nominations than the same fixture commanded last year.

Last season this stake commanded a total of 1,145 nominated mares, while for this year the total reaches 1,366, an increase of 221.

In the matter of nominations Kentucky, of course, stands at the head, with a total of 491, a trifle more than one-third the entire list.

## HANGED TO A TREE.

Colored Man, Charged With Attempted Assault, Lynched by a Mob Near Santa Fe, Ill.

## THE BODY RIDDLED WITH BULLETS

The Whites Then Charged Down Upon a Settlement of Negroes and a Race Riot Followed.

Many Colored People Were Shot and Wounded—The Tents in Which They Were Dwelling Were Destroyed By Fire.

Thebes, Ill., April 27.—An unknown Negro, aged about 17 years, was lynched by a mob of angry farmers near the village of Santa Fe Sunday afternoon for attempting to assault the 10-year-old daughter of Farmer Branson Davis.

Branson Davis lives one-half mile east of Santa Fe, a small village near here. While his 10-year-old daughter was in the barn-yard Sunday, the Negro accosted her. She ran, but he seized her and her screams brought her mother to the rescue. The Negro fled. Officers were notified, and were soon in pursuit. News of the assault speedily spread among the neighboring farmers, and resulted in an angry mob starting in search of the assailant.

The Negro was meanwhile captured by officers and was being brought to Santa Fe when the mob of farmers was met. A scrimmage resulted, during which the farmers secured the Negro. He confessed to the crime, but begged for mercy. Without a word the mob started with the prisoner toward the new bridge being constructed across the Mississippi, where he was hanged to an oak tree, without ceremony or delay. After the body dangled in the air a few moments it was riddled with bullets.

The officers endeavored to disperse the mob, but their efforts were unavailing.

A rush was made for a colony of several hundred Negroes employed on bridge construction work and living in tents near the bridge. The Negroes saw the mob coming and opened fire. A fusillade followed and the whites fled with effect as many of the Negroes were shot down. None of the mob was injured, and it is not known how seriously the Negroes were wounded. The mob pressed forward notwithstanding the steady fire until the Negroes turned and fled toward a nearby wood, taking their wounded with them. The mob then fell upon the tents and burned them. After accomplishing a general work of destruction, the mob dispersed. Extra police were sworn in, and Sunday night the village was under heavy guard. Excitement is intense.

Fire Lieutenant Shot and Killed By a Boston Woman.

Kelley, it is said, went to No. 3 Fay street, accompanied by a white woman employed there as a housekeeper. Some trouble followed resulting in Kelley being put out.

Half an hour later he returned and through a mistake went to the upper apartment which was occupied by Luke Viola and his wife. Kelley forced the door open and seized Viola by the throat, when Mrs. Viola, who is only 20 years of age, secured a revolver and fired three shots at Kelley, all of which took effect.

## THE "STAND PAT" CROWD.

There is great re-joining in the office of the American Protective Tariff League in New York. It has compelled President Roosevelt to change front on the question of tariff revision and it is now boasting of its achievement. It is no exaggeration to say that the most powerful instrument in this country to-day for the moulding of public sentiment is the organization of manufacturers which bears that name. The American Protective Tariff League defeated the Cuban reciprocity legislation of the first session of the Fifty-seventh Congress, emasculated the Cuban reciprocity treaty ratified at the last session, and will attempt at the next session to further negative that treaty. It has thus far prevented the ratification of the reciprocity treaties negotiated by Mr. Kasson. It has combatted the "Iowa idea" so successfully that President Roosevelt, who started out with a declaration that he would "stand pat" on the McKinley policies, which included reciprocity, has now concluded to "stand pat" with the high tariff faction of his party. This league has a membership of 1,000 including some of the most prominent manufacturers of iron, steel, cotton goods, woolen goods, cutlery, Yankee notions, leather goods, hosiery, gloves, varnish, silks, etc., in the entire country. The 1,000 members pay in years when important elections are on, a minimum annual assessment of \$100 each. This minimum fund of \$100,000 is swelled by additional contributions as the occasion demands. The object of the American Protective Tariff League is to create sentiment in this country favorable to the maintenance of the protective tariff and to prevent the abatement of existing tariff rates. It is the personification of the "stand pat" idea.

Suit was filed in the Mason Circuit Court Saturday by Robert W. Dryden against the H. E. Pogue Distillery Company for \$10,000 damages. County Attorney O'Donnell is attorney for the plaintiff.

Mr. Dryden was employed at the distillery last December, and while at work early one morning one of his hands was caught in the machinery and so badly injured that it had to be amputated.

He alleges he was unacquainted with the machinery, that the defendant company knew this, but directed him to clean it while it was in operation, also that the company failed to provide sufficient light to enable him to guard against possible injury.

# A BIG CIRCUS!

Once upon a time there was a big circus in Coatsville and the circus had such a great reputation that country people many miles around came to see it, in fact a great many that came had a hard time to get standing room. This circus always played at Coatsville and of course the merchants of Coatsville had a big trade. Around Coatsville there were a great many little country towns and they found that their little circus did not bring the crowds or even keep the people from going to Coatsville, so all these little places had a meeting and decided to pass laws to keep their people home, and they placed guards, with a big gun, on all streets and put a big sign on the gun that read: "Don't go to Coatsville for we have a circus of our own that needs booming." But people went through the fields.

**MORAL:** See that your own circus is all right and you need not bother about others.

### PROVED FATAL.

Little Searles Wood Died Shortly Before Noon Saturday of the Wound Received Friday Night.

Little Searles Wood, who was accidentally shot by his twelve-year-old brother Charles Friday evening, died at 11 o'clock Saturday morning at the home of his parents, Mr. and Mrs. N. S. Wood, of Forest avenue.

The wound was in the right lung, and was regarded by his physicians as almost necessarily fatal, but the child's condition early Saturday morning was such that some hopes were entertained of his recovery. During the forenoon, however, he became worse, and passed away at the hour named.

Searles was nine years old, and the youngest of three sons. The family have the sympathy of their many friends in their grief over his sad death.

The funeral took place this morning at 10 o'clock at the residence, Rev. Dr. Molloy officiating. Burial in the Maysville Cemetery.

## IMPORTANT ANNOUNCEMENT OF THE MAYSVILLE GAS COMPANY.

Under 2000 cu. ft. of Gas \$1.50 per 1000.  
Over 2000 cu. ft. of Gas and under 3000 cu. ft. \$1.25 per 1000.  
3000 cu. ft. of Gas and over \$1 per 1000.

At a meeting of the Board of Directors of the Maysville Gas Company March 28th, 1903, it was ordered that on and after the first day of April, 1903, the above sliding scale of price of gas for all purposes, fuel and illuminating, should go into effect for all private consumption, and that all rates and discounts heretofore made are hereby abolished.

It was further ordered that after the first of April the old rule of the company "gas will be turned off if account is not paid with five days after presentation" shall be enforced, impartially and indiscriminately, regardless of whom it may concern. (This action was taken not to appear arbitrary nor with the idea that the accounts of the consumers were not perfectly good at any time during the month, or a year later for that matter, but for the good of all concerned and in order that this part of the business of the company might be taken up at a specified time during the month and disposed of, and further in order that the time and thought of the company's agents and employees, now so largely occupied with this work of collecting, might for the balance of the month be diverted toward giving consumers of gas better attention and more efficient supply and service.

It was further ordered that beginning with the first of May and for each and every month thereafter, the monthly statement of account of each consumer should be delivered to said consumer by an agent of the company on the first day of the month, or the second day, if the first comes on Sunday, and that said account shall thereafter within five days be due and payable at the office of the company on Court street, Maysville, Ky., and if not so paid, gas will be promptly shut off.

The gas company further announces that, after the first day of April, they will handle and sell at cost price to gas consumers any of the great variety of gas stoves and ranges made by and shown in the catalogue of the Detroit Stove Works, Detroit, Mich., which price will be a sum equivalent to 50 per cent discount from the list prices in said catalogue. These stoves and ranges will be sold for cash only, or according to the terms of a printed lease, whereby easy payments are extended over a period of from twelve to seventeen months. For instance, take a gas range listed in catalogue at \$26, the gas company will sell this range to consumer for \$13 cash or for \$2.80 cash at signing of lease and 60 cents a month for seventeen months, at the expiration of which time the range is sole property of consumer. The company has selected to handle the Detroit Jewel Gas Range on account of its acknowledged superiority and wide reputation for durability and economical consumption of gas. The gas company will also handle, at cost price to consumer, the fixtures and mantles of the Weisbach Company in all of their many attractive varieties.

Before closing this announcement the gas company wishes to publicly express appreciation of the eminently fair, just and courteous treatment accorded them by his honor, the Mayor, and the Board of Council, particularly the Chairman and members of the Gas Committee of that body, through whose efforts in behalf of the private consumers, the above concession in the price of gas is now announced.

With the assurance to the citizens of Maysville that it will be the earnest effort of the company and its agents to at all times give them their best possible service at the least cost, we beg to remain, very respectfully, MAYSVILLE GAS CO.

P. S.—On and after April 1st the gas company will have on exhibition at the plumbing establishment of Mr. Larry Langfield on Market street, samples of the Detroit Jewel Gas Ranges, to the inspection of which those interested are cordially invited. You can leave your order for a range with any representative of the gas company, with Mr. Langfield or your regular plumber, with whom you will have to make arrangements for the connecting and fitting up of range in case of the placing of order.
